1. ADDENDUM DETAILS

1.1 Questions

An additional question have been received.

1. A potential Respondent was concerned that, based on how they were interpreting the various sketches provided, that the boreholes in the geotechnical report provided do not represent the intended location of the building.

The location of the four boreholes in the geotechnical report labelled "Inclusion_C_Item_1_2016-05-07 geotech draft report (1).pdf" correspond to the intended location for the new Aquatic Centre. This report is provided for information purposes only and East Hants does not warrant the accuracy of the report's findings.

The successful design team will likely want to do additional geotechnical investigations as part of their due diligence, but that cost would be considered as part of the subsequent second-stage selective procurement process, if one is held.

1.2 Information

We have released a request for expression of interest through our Human Resources department for a Project Manager for the new Aquatic Centre project. This advertisement can be found at:
