## QUESTIONS

The following questions have recently been asked:

1. *Does the Municipality wish to locate the new force-main on the east side of Hwy 2, or should the consultant survey and consider the west side of Hwy 2 as well?*

**The Municipality has assumed that the replacement forcemain will be located on the eastern side of Highway 2.**

2. *Does the Municipality consider for the purposes of this RFP, surveyors to be sub-consultants (i.e. are org charts and resumes required for surveyors)?*

**If the Consultant is using an external surveying company then they would be considered a sub-consultant. The Municipality would like to see resumes for the surveying team but an org chart is not required.**
