1. QUESTIONS 3

1. QUESTIONS

- 1.1. Does the entire zone have to be used?

No.

- 1.2. In order to respect the installation dates requested in the RFP would you be able to tell us approximately when the project will be evaluated?

Our expectation is to evaluate and award on or before September 6th, 2018. If this award is delayed, East Hants will extend the deadline to complete the Services by one week for each week of delay.

- 1.3. If the swing set meets the CSA standard does it also have to be IPEMA?

The intent of requiring the IMPEMA certification is to ensure that there is a reputable third party verifying products proposed meet the CAN/CSA Z-614-14. Where an IPEMA certificate is available, please include it for the equipment proposed. Where equipment does not have an IPEMA certification, East Hants will consider such the equipment if proof of a third-party certification to CAN/CSA Z-614-14 is provided, but acceptance of the equipment would be at the sole discretion of East Hants, acting reasonably.

- 1.4. On which surface does the bench need to be installed?

The bench is for parents to sit and watch their children; it can be inside or outside the protective surfacing zone depending on the Proponent's design preference. The bench would have to be installed as per the manufacturer's recommendation based on that design choice.

END OF ADDENDUM
