1. QUESTIONS	3
--------------------	---

1. QUESTIONS

Section 2.2.3.1.2. states - “Field review of select water, wastewater, and stormwater infrastructure (basic review done under Activity 2) Schedule to be agreed with East Hants”

Can you quantify this “field review” (estimated number of hours, length of mains for instance) so all proponents are submitting on the same scope of work?

Proponents are to allow for up to five site visits in their proposal, each at a minimum of four hours including travel, to verify conditions. The proponent will also provide a unit rate in their proposal describing the cost to conduct additional visits, if required. East Hants will only be responsible to pay for site visits which they authorize, in writing (including by email), prior to the visit being conducted.

Section 2.2.3.1.4. states “Limited CCTV inspection may be required, depending on the Consultant’s recommendation.”

Again, is this something you can quantify so all proponents are submitting on the same scope of work?

The proponent will provide a daily rate for CCTV inspection, if required. East Hants will only be responsible to pay for inspection which they authorize, in writing (including by email), prior to the inspection being conducted.

Clause 34 c of the Sample Agreement states Without limiting the foregoing in any way, the Consultant agrees to an assignment of all rights, title and interest, including all intellectual property rights, in and to the Final Reports identified

in Section 2 of the RFP documents, providing sole and exclusive rights to their use, as well as a waiver of all non-assignable rights including moral rights.

RVA cannot assign moral rights for our employees. Will East Hants consider removing or modifying this clause?

The requirement to waive (not assign) all non-assignable rights like moral rights is a requirement of a funding agreement to which we are a party so it cannot be removed or modified.
