ADDENDUM 4..... 3

ADDENDUM 4

QUESTIONS:

“Page 32 of the document, sec B, Material Disclosures, can you tell us what the spend amount of \$1,048,000.00 includes? IE cart repair, taxes, etc”

The amount (\$1,048,000.00) is comprised of the following:

Curbside Waste, Organics, and Recycling Collection; Christmas Tree Collection; Electronic Collection; Cart Collection & repair; and the portion of HST which is not reimbursable (4.286%). The amount before tax is \$1,005,458.00.

This amount does not include fuel surcharge amounts. Except as noted, no special collections are included in this amount.

“Could you please supply the following GIS layers for the Municipality of East Hants?

1. Civic address point file (metadata included with number of units on each property if possible).

In addendum 3, we stated:

“In reference to the property data, that is a provincial dataset which we are not able to share at this time. We will investigate to see what, if any, of this dataset we may be able to share, but do not anticipate a response prior to the close of this RFP.”

We have received a response as follows from Nova Scotia Geomatics:

“The MOU we have with the municipality does not permit the sharing of property data with outside entities/third parties. In order for the contractor to obtain the property data for East Hants, a contractor's license is required. Please have the contractor submit an email to geoinfo@novascotia.ca detailing the following:

Name of the project

Description of how the data will be used in the project List of requested data (ex. muxxxx list) Start and end data of the project Municipal contact name, job title, mailing address, telephone number, and email address”

END OF ADDENDUM
