1.8. PROPOSAL VALIDITY

- 1.8.1. All responses to this RFP should be held firm for a period of sixty (60) days from the Proposal Deadline or such additional time as may be mutually agreed upon in writing.

The Proponent must supply a detailed breakdown of the Total Cost including all fees, expenses, and disbursements for which the Proponent expects to be paid.

1.10. PROPOSAL REQUIREMENTS

- 1.10.1. The background, nature of the required Services, and other details which the Proposal must address are described in Section 2, Service Description. East Hants has tried to clearly describe what it wants to achieve in requesting these Services, its service expectations, and the level of support we may expect from the Successful Proponent during the term of the Service delivery.
- 1.10.2. **Generally:**
 - 1.10.2.1. While there is no maximum page limit, Proponents should only include information which they believe is relevant to the Services being requested and which demonstrates the Proponent's capability and capacity to complete the Services, in accordance with these instructions and being mindful of the Evaluation Criteria.
 - 1.10.2.2. Proponents should avoid relying on assumptions. If a Proponent is unsure of something which is material to their Proposal, they are encouraged to ask questions within the specified period in which to do so.
 - 1.10.2.3. Proponents should not rely on assistance from East Hants as part of their Work Plan unless such assistance can only be obtained from East Hants. East Hants will meet their reasonable obligations to supply information, access, and, where solely within their responsibility to do so, such assistance as is required to facilitate the Services, but the Proponent must plan to supply all other information and labour as part of the Services and included in their Total Cost.
- 1.10.3. **Methodology:** The Proponent must clearly and concisely describe in their Proposal how they propose to deliver the Services. This is the Proponent's one opportunity to convince East Hants they have the capability and capacity to complete the Services in a timely and professional way.
 - 1.10.3.1. East Hants wishes to understand how the Proponent will approach this project if successful. It is up to the Proponent to create compelling argument as to why their firm should be selected, in accordance with the scoring parameters East Hants provides.
 - 1.10.3.2. Proponents should demonstrate how the team they are proposing are qualified to complete the Services. A brief overview, typically one or two paragraphs, of each team member should be provided so East Hants can understand the role each are playing. Subconsultant roles must be clear from the narrative of the RFP response as well.
- 1.10.4. **Experience:** The Proponent must supply the résumés of the Primary Team Members listed in their Proposal. The proposed construction inspector is to be considered a Primary Team Member. Résumés should be brief, one page or less, and demonstrate that the team member has experience applicable to the project.
 - 1.10.4.1. Where specific experience may be lacked, demonstrate how the general experience the proponent has will be applied to this project.
 - 1.10.4.2. Discuss quality control and methods used to ensure the work produced is correct and of good quality.
- 1.10.5. **Safety:** Safety is an important component of every project. Briefly discuss how safety is managed at your organization, including:
 - 1.10.5.1. Whether or not your company has Safety Certified status. If, so include Certificate of Recognition (COR) with your response.
 - 1.10.5.2. If your company has any non-compliance or outstanding issues with the Nova Scotia Department of Labour and Advanced Education or Nova Scotia Department of Environment (or other similar non-compliance issues in any jurisdiction), such as stop work orders, pending charges/prosecutions, or recent (within the last year) convictions or fines, describe the circumstances and provide a summary of actions take to prevent reoccurrence.

- 1.10.5.2.1. Describe how you will ensure safety while providing Services, including environmental and worker safety, public safety with respect to access to the site, and safety generally with respect to hazard identification and mitigation.
- 1.10.6. **Cost:** Proponents must provide realistic cost and level of effort figures as part of their Proposal. The Proponent must include a schedule of fees and expenses detailing the planned hours and associated hourly rates for project team members which make up their lump sum Total Cost. If awarded, the lump sum Total Cost may not be exceeded.
- 1.10.7. **Schedule:** The Proposal must include a schedule indicating any stages proposed for the Services, together with the time required to complete each stage. The schedule shall indicate milestone dates and dates that items are to be delivered to East Hants. Provide a work breakdown schedule which lists each staff member, the hours assigned to the project, and the related activities.
- 1.10.8. **Examples and references:** Proponents must provide descriptions and references for three similar projects that they have completed, ideally where the same team members were involved and their roles similar to that proposed. Include the name, phone number, and email address for a representative of the client in case East Hants wishes to contact them. Discuss why the example was chosen and its relevance to East Hants' requirements.
- 1.10.9. Proponents must complete and submit with their Proposal Appendix A, the Proposal Form.
- 1.10.10. The Proponent may include any tables or attachments it feels will help clarify their Proposals above the minimums identified in the RFP document.
- 1.10.11. Proponents must indicate whether they are the sole undertakers of the work or whether sub-consultants will be used. Proposed sub-consultants shall be subject to approval by East Hants.
- 1.10.12. The Proponent must supply a list of all staff they anticipate to assign to the complete the Services, and must include an organizational chart showing the lines of responsibility and reporting structure of these staff.

- 1.10.14. East Hants may, without creating an obligation to any Proponent, request clarifications, additional information, supporting documentation not otherwise supplied, up to including a request for a meeting or presentation, for any Proposal or from any Proponent, prior to award.
- 1.10.15. It is the responsibility of the Proponent to be sure they understand the requirements prior to submitting a Proposal and before the deadline for questions has passed.
- 1.10.16. To qualify for award, a Proponent be registered with the Workers' Compensation Board of Nova Scotia (WCBNS), regardless of the size of the company or its usual status with WCBNS. The Proponent is required to provide a Clearance Letter with their Proposal, except where:
 - 1.10.16.1. A Proponent is not currently registered, but intends to register as a condition to providing the Services; and
 - 1.10.16.2. The Proponent confirms in Appendix A that they have inquired with WCBNS and have determined they will be able to obtain such coverage.
- 1.10.17. The successful Proponent will be expected to deliver the Services specified in Section 2, Services Description. The Sample Agreement included as Appendix B represents the terms and conditions which East Hants expects will govern the performance of the Services; while some negotiation may be acceptable, if a Proponent has objection to a specific clause, in particular indemnification or insurance requirements, they must raise them **during** the competition and East Hants, in their sole discretion, may choose to alter the clause or not.

2. SERVICES DESCRIPTION

2.1. GENERAL

- 2.1.1. The East Hants Servicing Capacity Study, completed by R.V. Anderson and Associates, dated February 22, 2024 (the study), highlighted the need to upgrade Lift Station #10 (LS10), located at the Medical Centre on Elmsdale Road, Elmsdale. According to the study, this lift station requires an immediate upgrade of the pumps to accommodate current and future wastewater flows.
- 2.1.2. Bearing in mind the results of the study and using the current version of the Municipality's sewer model, the Consultant is required to determine the appropriate upgrades to LS10, based upon current and futures flows and incorporate them in the detailed design.
- 2.1.3. During the design of the lift station upgrades, the Consultant should identify any constraints to the proposed flow that haven't already been captured by the study and should provide a written report on any additional measures that may be required to accommodate the predicted flows along with a suggested timescale for the improvements.

2.2 SITE CONDITIONS

- 2.2.1. The Consultant should verify site conditions and accuracy of record drawings, as necessary, to enable them to complete the design.

2.3. TENDER DOCUMENTS

- 2.3.1. The Consultant will be responsible for providing tender documents, including drawings and specifications as necessary, to tender the construction. It is anticipated that the Standard Specification for Municipal Services will form the basis of the construction contract and tender documents should be based on the current edition. East Hants will compile the tender documents into their standard tender template and the Consultant will provide originals of all required documents in a format acceptable to East Hants, for use by East Hants.
- 2.3.2. East Hants will manage the tendering process and design related questions that arise during the tendering process will be forwarded to the Consultant for review and appropriate response. Typically, the Consultant will need to provide a response to East Hants by 4.00 pm the following business day, so that East Hants can incorporate the response into an addendum, if necessary. The Consultant shall not respond directly to questions posed to them by potential Tenderers during the tendering process unless directed to do so by East Hants.

2.4. CONSTRUCTION SUPPORT & REVIEW

- 2.4.1. The Consultant will be responsible for providing 'Issued for Construction' drawings as well as typical construction support activities which include, but are not limited to, responding to design questions that may arise during the construction, visiting site to investigate same, issuing Change Orders for approval by East Hants or approving necessary changes to the design (in consultation with East Hants). The Consultant will also be responsible for providing 'on-site' review services which include but are not limited to maintaining a presence on site to document construction, witness tests and verify that the work is being undertaken in accordance with the design and to a sufficient standard of quality.
- 2.4.2. The Consultant will notify East Hants of any construction issues as soon as they arise and what their likely impact will be and will ensure that no site instructions are issued without East Hants' knowledge. It is anticipated that the review services will be 'full time'. Appendix A - Cost Form indicates a number of hours for Construction Review. This is to ensure that all proponents are pricing for the same number of hours. The actual hours spent on Construction Review may vary from the number indicated. The hours allocated for Construction Review are intended to accommodate on-site personnel only, excluding surveying personnel; personnel normally located in the Consultant's business office are to be allocated under Construction Support. It is intended that the constructor will be responsible for field surveying and materials testing.

- 2.4.3. The Consultant, in conjunction with the constructor, will be responsible for noting any changes to the design during construction and for producing 'as built' record drawings. Record drawings will be provided to East Hants in electronic format (both PDF and AutoCAD).
- 2.4.4. The Consultant will be responsible to specify and oversee commissioning of the new equipment, observing and verifying tests and inspections, requiring operations and maintenance manuals to be completed and verifying the same, and verifying that the equipment has been properly integrated into any applicable control systems.
- 2.4.5. During the warranty period, the Consultant must be available to assist East Hants with any warranty claims related to the new equipment that may arise. The Consultant will provide an inspection of the new equipment prior to the end of the warranty period.

Changes to the Schedule must be approved by East Hants in writing.
- 16 In identifying a period of delay, the Consultant must make reasonable effort to quantify the expected period of delay and to minimize such delay.
- 17 Except in the case of an excusable delay, the Consultant will be liable to pay for any expenses East Hants may incur which are a result of the delay in performance. This may, without limitation, include additional contract management fees (if any), additional fees claimed by a contractor as a result of the delay, and any costs which can be reasonably attributed to the delay.
- 18 Provided that the Consultant identifies the delay as specified herein and makes reasonable effort to quantify and minimize the delay, the Consultant shall be excused of any delay ("excusable delay") that:
 - a. Is beyond the reasonable control of the Consultant;
 - b. Is not avoidable by the exercise of reasonable foresight; and
 - c. Occurred without the fault or neglect of the Consultant.
- 19 For greater clarity, any delay caused by the lack of financial resources, labour disputes/strikes, insolvency, any event that is a ground for termination provided for in this Agreement, or any delay in the Consultant fulfilling an obligation to deliver a bond, guarantee, letter of credit, insurance, WCB certificate or other security relating to the performance or the payment of money, shall not qualify as an excusable delay.
- 20 In the event of an excusable delay, any delivery date, schedule, or other date that is directly affected by the delay shall be postponed for a reasonable time not to exceed the duration of the excusable delay.
- 21 Where an excusable delay continues for 30 days or more, East Hants may, in East Hants's absolute discretion, choose to terminate this Agreement. In such a case, the parties agree that neither party will make any claim against the other for damages, costs, expected profits or any other loss arising as a result of the termination or the event that gave rise to the excusable delay.
- 22 Except to the extent that East Hants is responsible for the delay for reasons of failure to meet an obligation under the Agreement, East Hants shall not be liable for any costs or charges of any nature incurred by the Consultant or any of its sub-contractors as a result of an excusable delay.

PERSONNEL

- 23 East Hants expects the personnel listed in the Consultant's duly signed proposal to perform the Services indicated. The Consultant must obtain written permission from East Hants before changing any member of the work team. In the case of personnel being changed, the new personnel being assigned must have a similar length and breadth of experience relevant to the matter of this contract as the personnel being replaced and they must be acceptable to East Hants.

SUBCONTRACTOR

In the event that the Contractor wishes to use subcontractors for some or all of the Services, they must make such a request in accordance with the CHANGE provisions of the Agreement and additional conditions may apply."

- 24 The Consultant is advised that the subcontractor listed in the Consultant's proposal and their work scope cannot be changed without the written permission of East Hants. Failure to comply with this provision will be considered a breach of contract and may result in termination of the Agreement.
- 25 If the Consultant finds that a subcontractor named in this Agreement cannot perform some or all of the Services for which they were named, the Consultant may request permission from East Hants to engage an alternative subcontractor for such Services.
