## QUESTION

Under Section 'Article A10-Time', it states that 'all paving work' to be completed before asphalt plants close in 2024. Does that mean other items of work can be completed in 2025? Thermoplastic line painting completed after October 31 is not guaranteed by the line painting contractor, the temperatures are too low. Can this be done in 2025 or does it need to be a different type of application?

Yes. The intent is to ensure that pavement is reinstated before the asphalt plant shut-down to prevent issues related to open pavement cuts.
