

ADDENDUM 2

Released: January 31, 2025

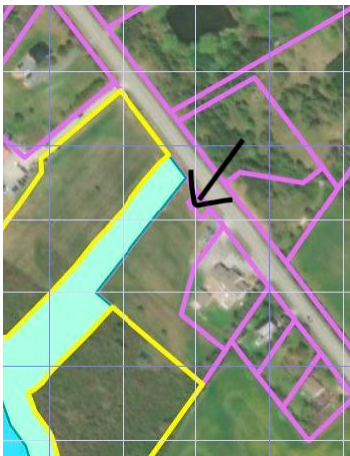

QUESTIONS

I just have a couple of questions -

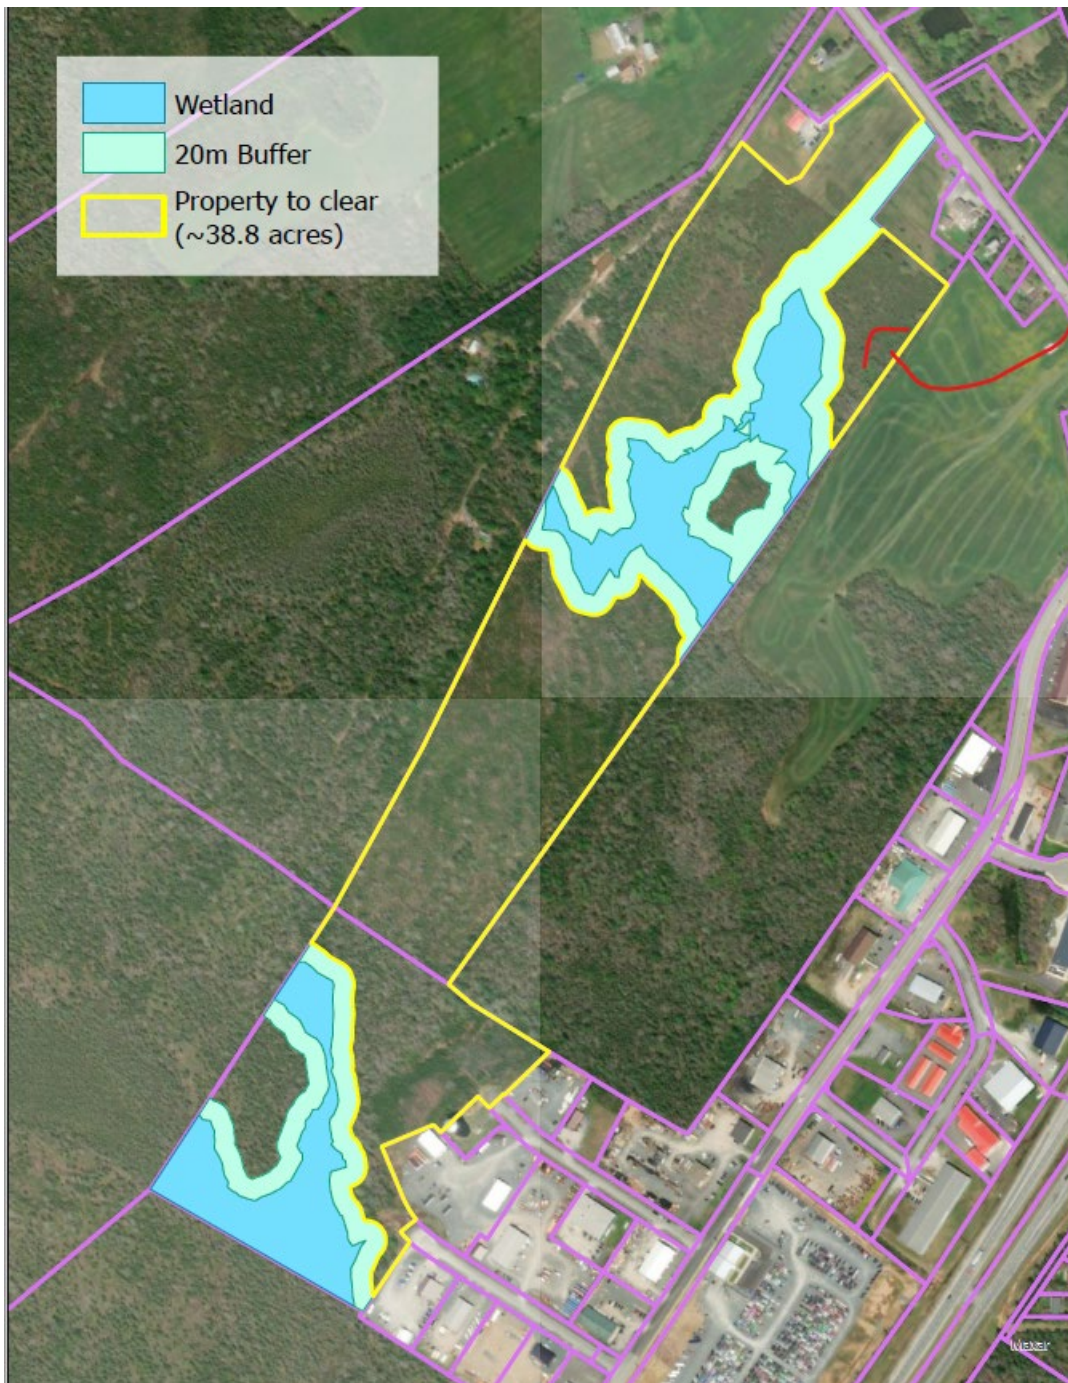

Through review of the project page 1 states there is 38.8 acres to be cleared, and page 5 states there are 40.3 acres to be cleared. Can you verify which is the correct number of acres?

38.8 Acres is correct.

After reviewing the images can you tell me if the lot beside the preschool, is the small space to be cleared accessible through that space by the black arrow?

No. The Municipality has obtained limited permission to unload the machine and track the machine over the neighbouring property to that area, as shown with the red arrow.
