Seeking volunteers**

EAST HANTS

Municipal Housing Working Group

In response to the housing crisis, East Hants is forming a working group to aid in the development of a Municipal Housing Strategy. The Strategy is intended to identify solutions to increase the provision of housing within East Hants with a focus on affordable housing.

The Municipal Housing Working Group is expected to meet monthly for 8-12 months during the development of the strategy. If you represent one of the groups below and are interested in serving on the working group, please go to easthants.ca/housing to fill out an application by February 21, 2024.

We are looking for 2 members representing the East Hants Development Community, 2 members representing the Non-Profit Housing Community, 1 member representing the East Hants Chamber of Commerce and 1 public member at large. Three Municipal Councillors will also serve on the working group.

John Woodford
Director of Planning & Development
