Subject: Landscape Nova Scotia is partnering with Communities in Bloom!

Good Afternoon,

Landscape Nova Scotia is excited to be a part of [Communities in Bloom](#) in 2023! We are reaching out to you today in hopes you will consider becoming a part of CiB this summer. The benefits of gardening have been proven to be beneficial in so many ways, including the environment and aiding in increased tourism. Who doesn't love coming to Nova Scotia in the summer, especially when the town (or city) is beautifully landscaped with enchanting garden beds and hanging baskets? It's part of what we love about this province! On a snowy day such as today, I'm sure the [promotional video](#) will get you excited for spring.

You can register by filling out the attached form or online, by clicking: <https://survey.alchemer.com/s3/7204710/2023-CiB-NS-Registration-Form>

Also attached is a guide as to *how* your county or municipality can participate.

We hope to make 2023 a very successful and colourful year and hope you join us!

Please reach out to myself or [Angela Silva](#) with any questions.

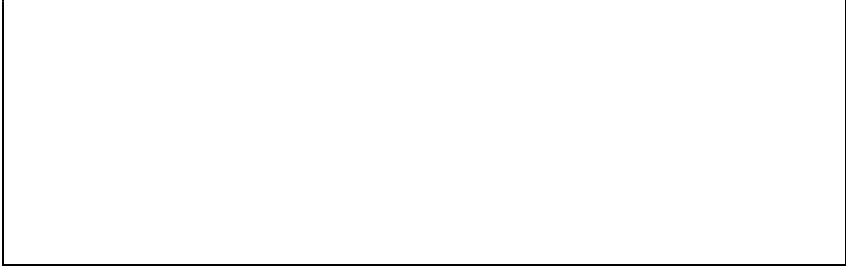

Sincerely,

Jan Loner | Executive Director
