**RE:** **Infrastructure & Operations Committee Report**

---

The Committee held its regular meeting on October 17, 2023 in Council Chambers. There is one motion coming forward as a result of that meeting:

1. **MUNICIPAL STANDARDS UPDATE**

The Municipal Standards for water, wastewater and transportation were updated in July 2022. Council was advised at that time that these standards would be reviewed on a regular basis and amended/revised as necessary. Staff have completed a recent review of the standards with a focus on further continuous improvement.

The Infrastructure & Operations Committee recommends to Council *that Council approves the revisions to the Municipal Standards as attached to the Executive Committee agenda of October 17, 2023.*

As Chair of the Committee, I so move.

**As Chair of the Committee, I move the adoption of this report.**
