Subject: ATV Highway access

Fundy ATV just received notice that we may be able to get a section of Highway 354 in Kennetcook designated as an ATV Trail under the new Provincial Road Trail system. Part of the requirement is to have a letter of support from the local government. This would be the same idea as what I have had Kate write for us in the past when we apply for grant money. The section we are seeking is from our current trail we just constructed 2 years ago and lead to the village where we get fuel and food, and access the DAR Line; I have attached a Google Earth map for information purposes.

It would run from 6000 Highway 354 to 6191 Highway 354 and is already a regularly used section of the highway, this will just make it legal.

I apologize for the short notice, but we would require this so we can submit it by this Friday October 27, 2023.
