**Subject:** Questions/ Support Request

Hi Jo,

I would like to begin by thanking you again for being such a helpful resource to KAP.

We are still actively working on trying to create a day care facility/ new expanded home for KAP. Which leads me to my question, is the municipality interested or able to purchase a facility or home that could then be permanently rented by KAP. We could then run a full time childcare facility out of this location and a host a space for KAP programs and office spaces.

We have a potential location for this in mind, and I have attached a screenshot below.

I look forward to hearing your response and hopefully moving forward with this much needed space for families in the community!

Ashley
