RE: East Hants Sportsplex Summer Rate Approval

From an update to Council in October 2024, motion C24(355) directed staff to keep the EHSP rates the same and to bring back recommended rates as part of 2025/2026 draft budget discussions. The recommended rates were posted in a report to January Executive Committee however Committee deferred the discussion on the report to budget deliberations. This was done with the understanding that Council would deal with the summer ice rate at the January Council.

The following motion is required in order to ensure operations and planning move forward:

Move that Council approve the ice in Ice Pad B be maintained for the summer (June 15th - August 31st) and rented at non-prime rates, and that rates for the summer be set at \$117.39 for general users and \$223.36 for corporate users (HST not included).
