RE: Accessibility Advisory Committee Report

The Committee held a meeting on March 17, 2025, at the Lloyd E. Matheson Centre. The following motion is coming forward as a result of that meeting.

1. FINAL DRAFT OF ACCESSIBILITY PLAN

The Manager of Planning gave a presentation regarding the review and amendment of the Accessibility Plan. The presentation included details of the steps taken during the review of the plan.

As part of the review a public survey was undertaken and 52 responses were received. The feedback received was mostly similar to the original survey in 2019. Additionally, following a lunch-and-learn with the CNIB items were added to the Plan and a draft copy of the Plan was sent to the CCOA who provided comments that were made available to the advisory committee.

The Accessibility Advisory Committee recommends ***that Council approve the adoption of the 2025 amended Accessibility Plan - Accessible East Hants.***

As Chair of the Committee, I so move.
