Council:

On March 1st the Fire Chiefs of the East Hants Fire Service Association held their quarterly meeting. The Chiefs discussed the potential for a municipal fire burning bylaw. There was a general interest for the municipality to explore a bylaw that would compliment the provincial regulations and burning restrictions.

If Council considers exploring this request, the Chiefs would like to be engaged on any enforcement aspects that may be delegated to the chiefs as part of a draft bylaw to ensure adequate capacity is within the fire service.
