Minas Select Inc.

Attn: Mr. Darren Porter

458 Main Street, P.O. Box 457

Kentville, NS B4N 1K8

Dear Mr. Porter,

Thank you for the update provided to Council in May regarding the ongoing developments in Walton.

Council wishes to acknowledge the efforts of both yourself and Minas Select Inc. in advancing plans to establish Walton as a fully active marina serving multiple sectors. Council recognizes the significant progress made to date, including the approval received from the Department of Fisheries and Oceans (DFO) that enables the potential reconstruction of the wharf.

We understand your next priority is to secure approvals for the repairs and rebuilding of the breakwater that is an essential step in protecting both current investments and existing infrastructure in the area. Council supports your continued efforts for investment and redevelopment in the area.

Thank you for keeping Council informed as you move forward with the development of your lands. We look forward to future updates.

Sincerely,

Eleanor Roulston, Warden

Municipality of East Hants
