Subject: Request for Park access, Guided Nature and Ocean floor tours

Dear Alana Tapper,

My name is Denise Thompson and I am reaching out as the owner of ShoreGirl Adventures. I am writing to request permission to access Burntcoat Head Park for the purpose of offering guided nature walks and ocean floor tours, filling a void for late afternoons and evenings. Our tours focus on environmental education, local ecology, and Nova Scotia's rich natural and cultural heritage. We aim to highlight native plant species and their role in traditional medicine, as well as the unique tidal ecosystems along the Bay of Fundy. All activities are guided, respectful of the environment, and designed to promote responsible tourism and community engagement. I would be happy to answer any questions you may have, and I am open to working within any requirements the Municipality may have. I am asking that this be put on the agenda for June's council meeting.

Thank you for considering this request. I'd be happy to discuss this further at your convenience.

Denise Thompson
