Dear Members of Council,

I am writing to respectfully request that you consider the installation of a new crosswalk at 201 Park Road, Elmsdale. Corridor Community Options is about to open a new facility at this location to support people who are considered to be living with intellectual and/or physical disabilities in the community.

I expect a high volume of traffic at this location because of the number of people that will be supported; and also by people visiting our Thrift Store and Café.

Some of the things we want to promote are independence, safety, exercise, and accessibility to community. It would be wonderful if people could cross the road safely; and then use the sidewalk to access the community; and walk to things like the library, pool, health services, grocery stores, shopping, and other locations. Another benefit of being in the business park is that participants in our community employment programs can access employment opportunities, perhaps by walking, which will only increase their independence and well being.

I would be happy to discuss this further.

Sincerely,

Ross Young  
Executive Director
