Subject: EPF regional

Calvin, I'm hoping that I'm not too late in getting this to you but we here at Shubie Fire are interested in purchasing a trailer through the emergency provider fund (EPF) and that would fall in the category of a regional purchase whereby we need to involve the municipality as a partner in this purchase as stated to qualify. We are fully understanding that we will pay the cost of trailer but to qualify for that part of the emergency provider fund, we need to be partnered with the municipality in the purchase and all that we are asking is to see if we could arrange that with the municipality's blessing, to qualify for that part of the EPF.

This purchase is so that we can move our equipment more safely than what we currently do and move all our equipment, i.e. forestry skid, Argo and the equipment that needs to go with those items.

This piece of equipment and the equipment that will be transported in this piece of equipment is for the benefit of all of East Hants Fire when it comes to specialized rescues and support.
