Subject: EA Addendum Registration – Mount Uniacke Quarry Expansion Project

Good morning,

On September 23, 2025, **Northumberland Capital Corporation Inc** will register the additional information for the **Mount Uniacke Quarry Expansion Project, Hants County** for environmental assessment (EA), in accordance with Part IV of the Environment Act.

The purpose of the proposed undertaking is to expand the existing quarry from approximately 4 ha to 40 ha to allow for the continued production and stockpiling of aggregate used in a wide variety of local construction and infrastructure projects. The proposed undertaking will take place approximately 2.5 km northeast of the community of Mount Uniacke, Municipality of East Hants, Nova Scotia. The access road to the quarry is located off Uniacke Mines Road, approximately 2.3 km northeast of the intersection of Trunk 1 and Uniacke Mines Road (44.915°N, -63.8141°W). The project's lifespan will be an estimated 30 to 50 years with continued production of an average of 30,000-50,000 tonnes of aggregate annually, based on current market demands. The commencement of the proposed project is Summer 2026.

On September 23, 2025, all project information will be available on Nova Scotia Environment and Climate Change website at [Projects | Environmental Assessment | Nova Scotia Environment](#).

Please note that all comments must be provided by **November 2, 2025**, to be considered in this environmental assessment.

Comments are requested to be provided by e-mail if possible and only related to the Additional Information Addendum. All submissions received will be posted on the department's website for public viewing.

On or before November 12, 2025, the Minister of Environment and Climate Change will decide if the project can be granted conditional Environmental Assessment Approval.

Kind Regards,
EA Branch
Nova Scotia Environment and Climate Change
