**Subject:** Shubie Monument

Good morning

I see alot of angry people on Facebook regarding the Shubie Monument.

It was moved without proper communication with the community and I hope it is a lesson learned from here on in.

Things of this nature are placed for the people not a hand full of a municipality members or anyone else.. You wouldn't go to Mic Mac and move a monument out there. Ill bring the popcorn and my lawn chair if you try.

I am in favor of it's new home has lots of room for people to take in the ceremony away from the train and off of the main road.. But I did and still do like where it was located for it's first 100 years, it had a symbolic reason. Here nor there the train station is gone as well... As a tax payer of East Hants as my family are in the same mind set, we're not in favor of moving it back and the tax payer paying for it ! The legion was for the Vets and it looks good where it is...

That being said for the HUGE mistake , Im totally in favor as are my family to have a Point of interest placed somewhere in that parking lot off to the side with a monument about the war monument/ train station and the community has the say on the design with a budget of course and square footage. Have the community submit their ideas and goes to a vote on the best idea..Shubie is a small community with old values, treat as so.

Its the least the council can do to smooth it over... Only people with tax bills in East hants can submit...

Thanks Perry Macphee of Shubenacadie
