**Subject:** Dory Lane Proposal

Hello Mr Tingley,

Just saw the proposed development on Dory Lane. I am opposed to the rezoning as I feel we should keep the residential neighborhood zoning. There are too many developments going on with no attention to infrastructure. It is so difficult to get out onto highway 2 now, this will make it worse. What about the school? What about things for the children to do that do not cost an arm and a leg?leg? What about the essence of our neighborhoods?

I am opposed to more development without looking at developing some infrastructure. We pay almost the same taxes as Halifax without the benefits.

If we allow reasoning for this development, what is to stop it being done again for another development? We moved to this community for a reason and I do not want to see our neighborhood developed away.

Please vote no to this rezoning.

Thank you for hearing me out.
