Subject: Cenotaph

Good evening Walter,

Even though I was unable to attend the meeting last Wednesday, I caught up thanks to speaking with Betty and watching on You Tube. Encouraging as it was to see some councilors seeming to have shifted there position on the cenotaph, it appears the stumbling block now may be the use of the General tax fund to move it back. Why does the money for it's move have to come from here, could it not come from the contingency fund instead? How many taxpayers do we have in the municipality and even if it had to come from the gta how much of a financial burden would it be? Unlike the sports plex which we saw on our tax bills for years?

Will see you on the 24th.

Regards,

Shelley Edgett

Kim Ramsey can forward this to other councillors
