**Subject:** FW: East Hants RCMP Administrative Support

Please post for Council information. Estimated savings per year is \$150K. Great news for East Hants.

There are also significant changes coming to the RCMP billing model that will move us away from the per officer cost model. The changes will take effect in October 2026. More to come on that once the information is received from the RCMP.

Thanks  
Kim

**Subject:** East Hants RCMP Administrative Support

Hi Kim,

Following up on our call from Friday, this email confirms that the Province will direct the RCMP to establish to the two indeterminate administrative support positions assigned to the East Hants RCMP Detachment. There will no longer be a requirement for an MOU as there will be no direct cost recovery from East Hants for the indeterminate positions. Notwithstanding the 12-month requirement for termination per the MOU, I trust the municipality is agreeable to its termination upon the June 4, 2026 expiry.

Should you require anything further on this matter, please let me know.

Additionally, the Province will look to arrange for another cost methodology information session with CAOs. Keep an eye on your inbox for an invite.

Thanks,

**Danielle Desjardins (*she/her/elle*)**
