Subject: Follow up re SAP transition

Dear Kim,

I am following up on the communication from the CSDS Deputy Minister yesterday regarding the planned offboarding of municipalities from the provincially supported SAP program.

As we move into the transition period, we would like to check in with you to ensure that appropriate supports, information, and coordination are in place as you advance toward new enterprise resource planning (ERP) solutions by the targeted date of December 31, 2027.

Our team will reach out soon to schedule an initial discussion. Our goal will be to better align provincial engagement with municipal needs and to identify questions, challenges, timeframe concerns, and opportunities for collaboration.

If you have questions, wish to share an update, or would like to discuss your municipality's status in the meantime, please let me know.

Sincerely,
Pamela Matheson
