Good afternoon, Warden Roulston, Mayor Gilroy and Mayor Zebian:

As your representative on the Progress Monitoring Committee for the Mass Casualty Commission's recommendations, appointed by the Government of Canada and Province of Nova Scotia, the three-year term of the Committee has now ended.

The final report was released and forwarded today. I am sending it to you as Warden/Mayor and asking that you forward it to your respective Councils for their information. Please see the links to access the report, and other relevant documents, in the following PMC Secretariat's message.

It has been challenging, sometimes intense, heartbreaking and yet, rewarding, to work with the expertise and professionalism of the committee members, the PMC Secretariat, as well as with family members who have suffered the greatest impact and loss.

As you will see from the report, accountability on the progress of the recommendations from the MCC final report and supporting transparency to the public on that progress was key. The Government of Canada, Government of Nova Scotia and the RCMP put a lot of work into advancing and implementing the recommendations. Commitment has been made by each to finalize work that has not been completed and follow up to have it implemented.

Thank you for the trust and confidence you placed in me to represent our municipalities on this important and impactful Committee. It was a humbling experience as one listened to the family members, but truly an honour and a privilege to address these recommendations with the hope of safe and secure communities for our future.

Should your Council wish, I would be pleased to address your Council on the PMC and its final report, at a mutually convenient time.

Kindest regards to each of you,

Christine
